## Reader thankful for groups protecting the environment

Mar 8, 2022

Many thanks to One Hundred Miles environmental group, Glynn Environmental Coalition and all of the Riverkeepers for the work you all do to protect our Golden Isles and her surrounding waterways.

It is called the Golden Isles for a reason. Organizations like these work around the clock to preserve and protect what we hold so dear. Thousands of us benefit from your tireless efforts of truly caring for our coast. Thank you.
